

LOCATORS

Magna-Trak® 100 Series

Magnetic Locators

Magna-Trak locators include a multitude of features such as an LCD visual display and/or audio tone, a lightweight easy grip design, water resistant case, easy battery access, outstanding battery life and a 5 year warranty.

Magna-Trak 100

- Digital bar graph display
- Standard audio tone
- Visual 'low battery' reminder

Magna-Trak 101

Same components as the 100, minus:

- LCD meter display and membrane switch
- Operation is dependent on only two rotary control knobs: sensitivity and volume

Magna-Trak 102

Same features as the 100, plus:

- Push-button erase feature
- Power line indicator

- Magna-Trak Cases**
19-553 Hard carry case
19-552 Soft carry case

Schonstedt GA-52CX

GA-52CX
Magnetic Locator

Detects the magnetic field of iron and steel objects, and energized power lines. Designed for one-hand operation, the On/Off-Sensitivity and Volume controls are located on the underside of the cover.

Schonstedt GA-72Cd

GA-72Cd
Magnetic Locator

Locate iron survey bars, metal stakes, shutoff valves, etc. This unit has all the features – ruggedness, reliability and high performance, digital readouts, dynamic bar graphs, polarity indicators and an audio signal that quickly pinpoints underground objects.
